JIRA SOFTWARE

9.Create a Scrum Project in Jira.

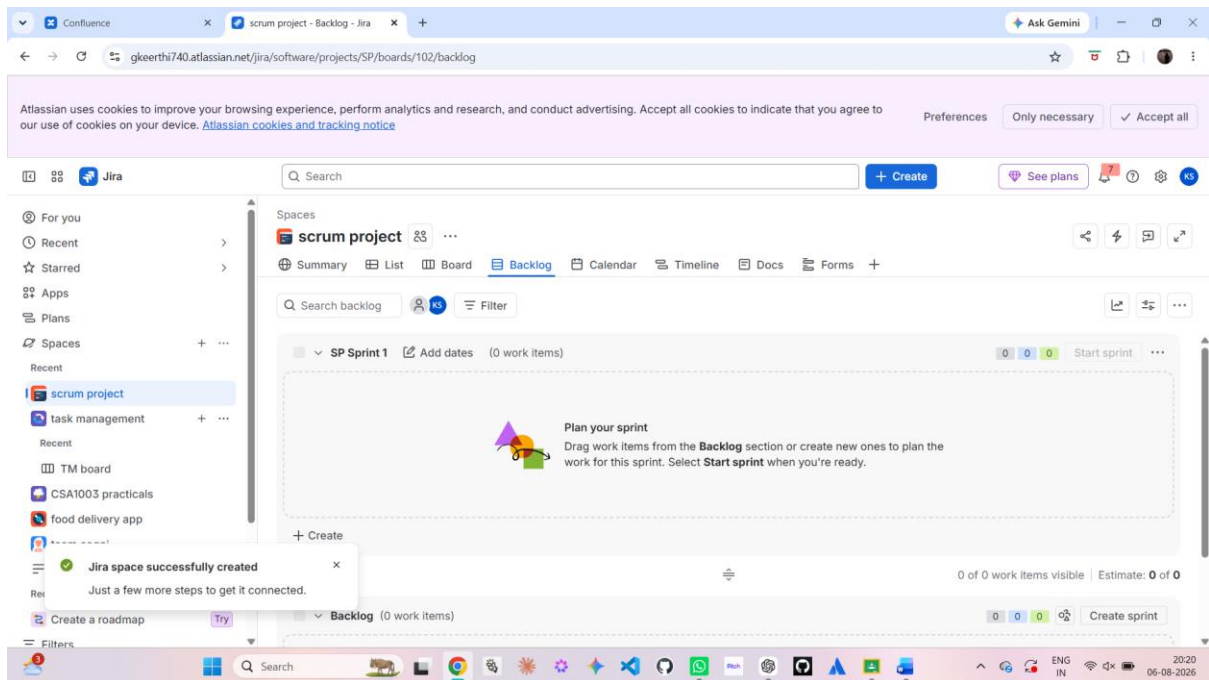

- Add a backlog with at least 5 items (e.g., "Create user registration page", "Develop API for login").
- Prioritize the backlog and create a 1-week sprint.
- Move backlog items into the sprint and start the sprint.
- Finally show the Screenshot of the sprint board at the start and end of the sprint.

<https://gkeerthi740.atlassian.net/jira/software/projects/SP/list?jql=project%20%3D%20SP%20ORDER%20BY%20cf%5B10019%5D%20ASC>

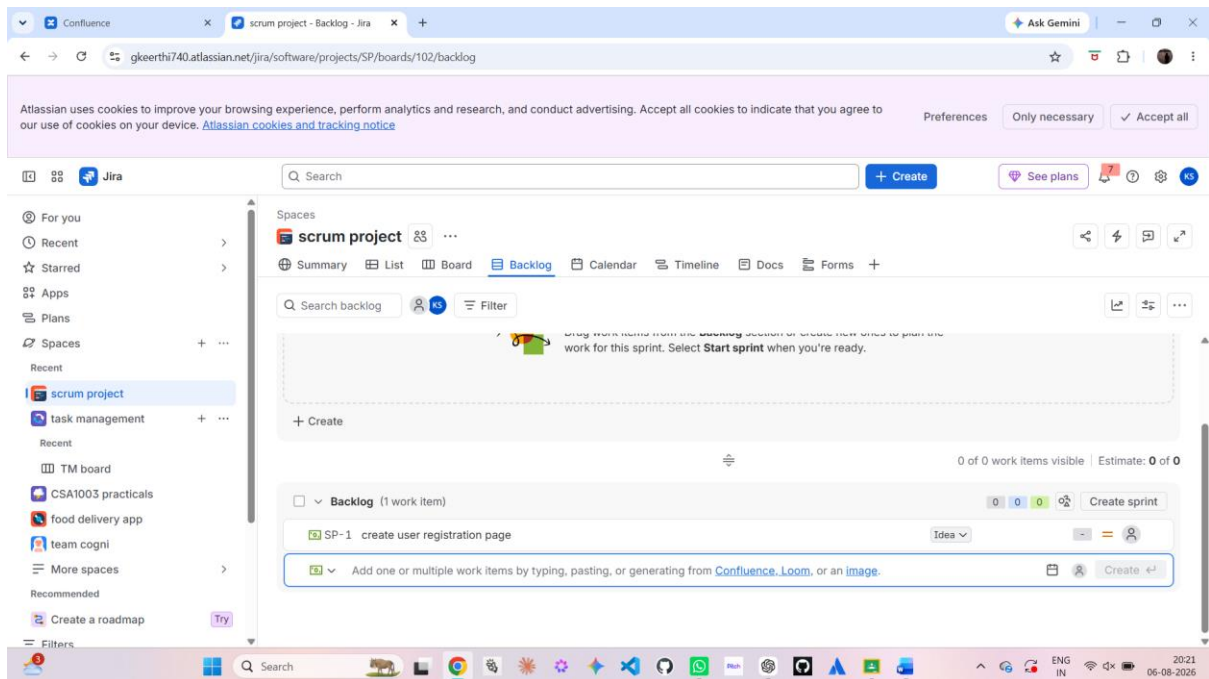

1.Navigate to the board section to access the scrum board

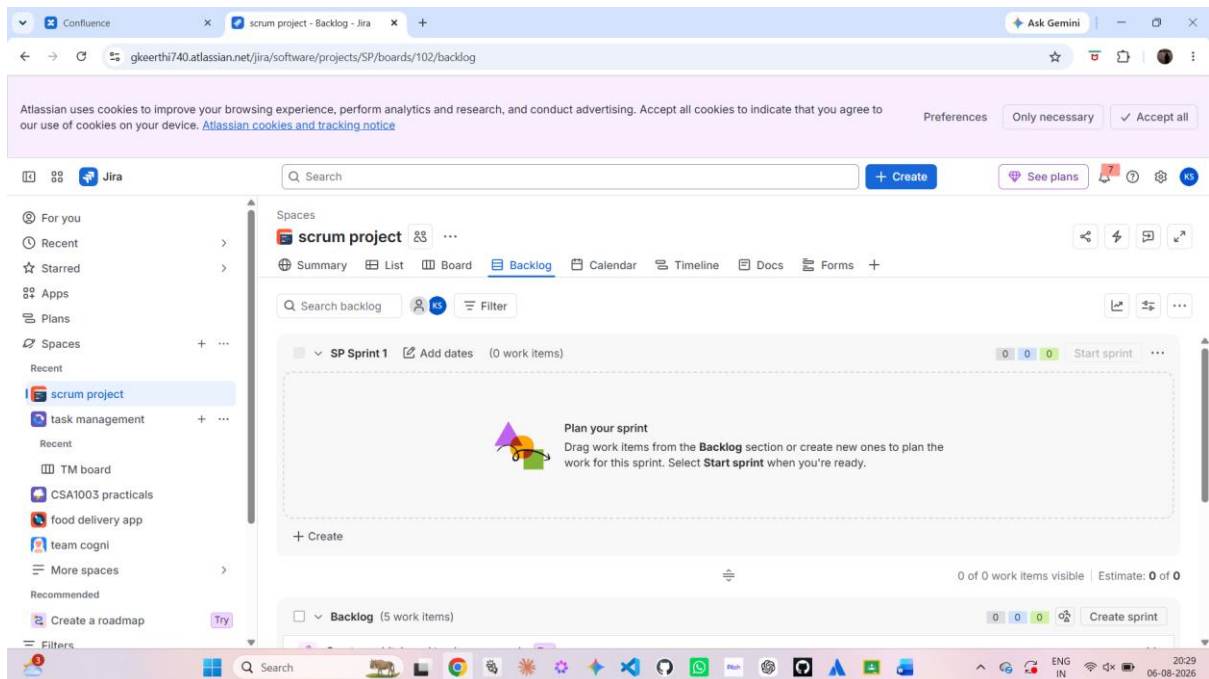

2. select the scrum template and use the template

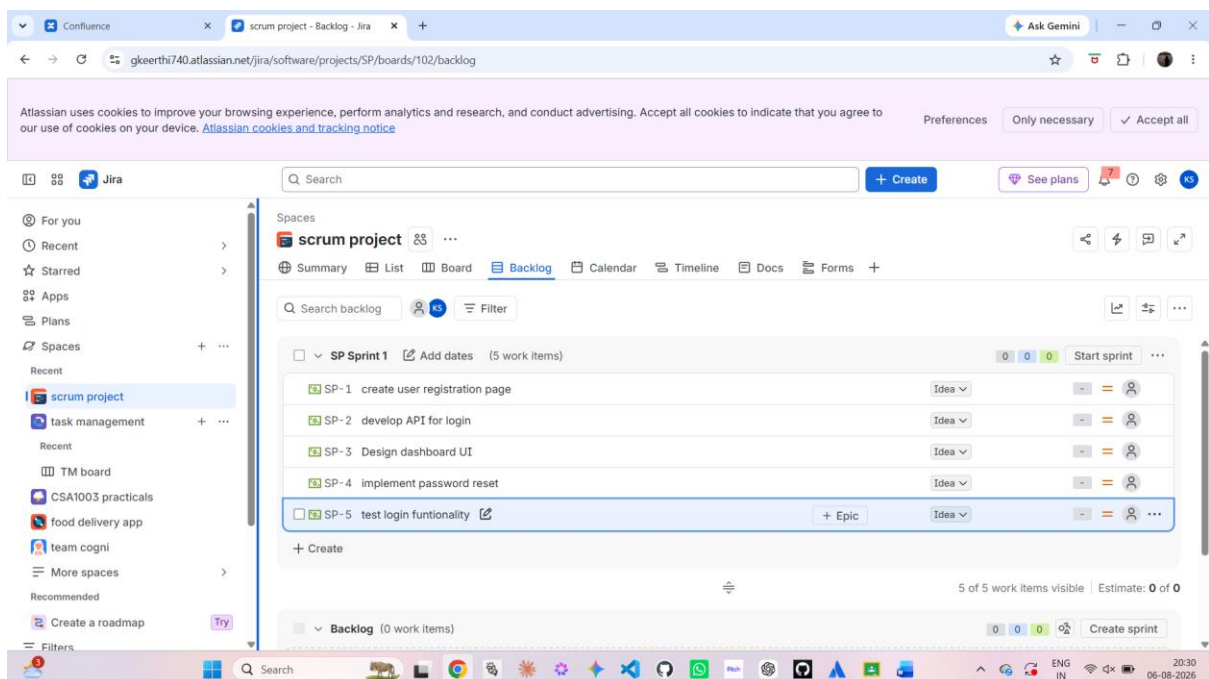

3. create the issues in the backlog item column

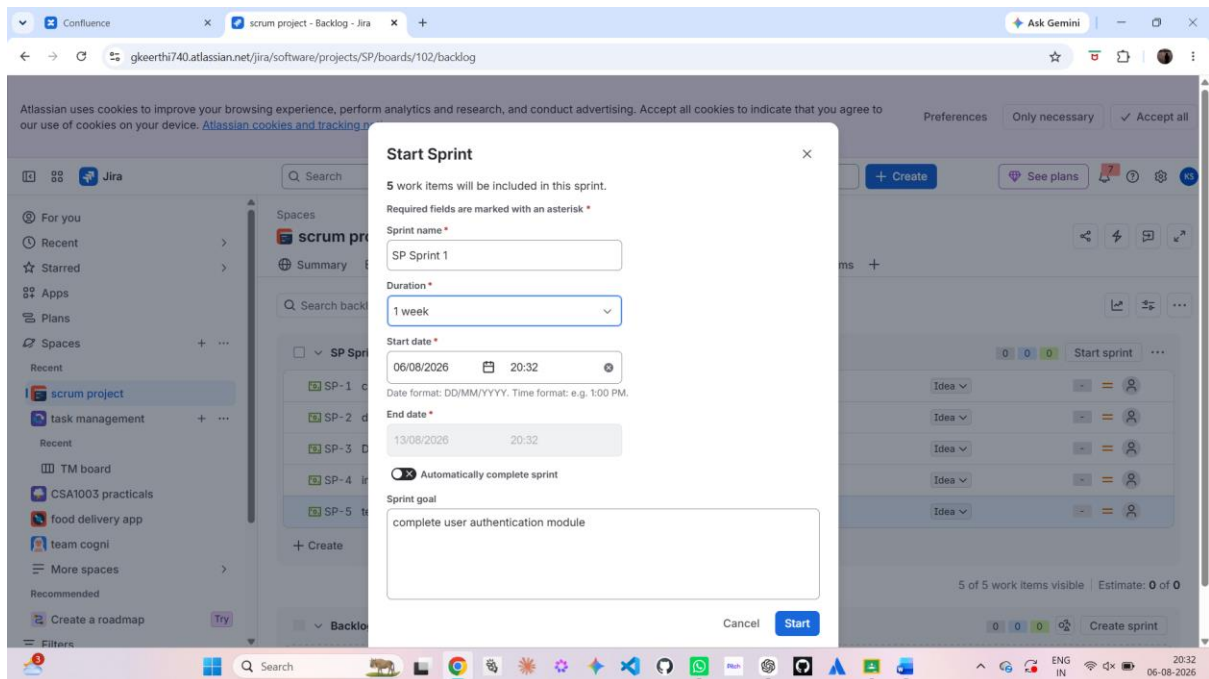

4.create the sprint 1 in the sprint column

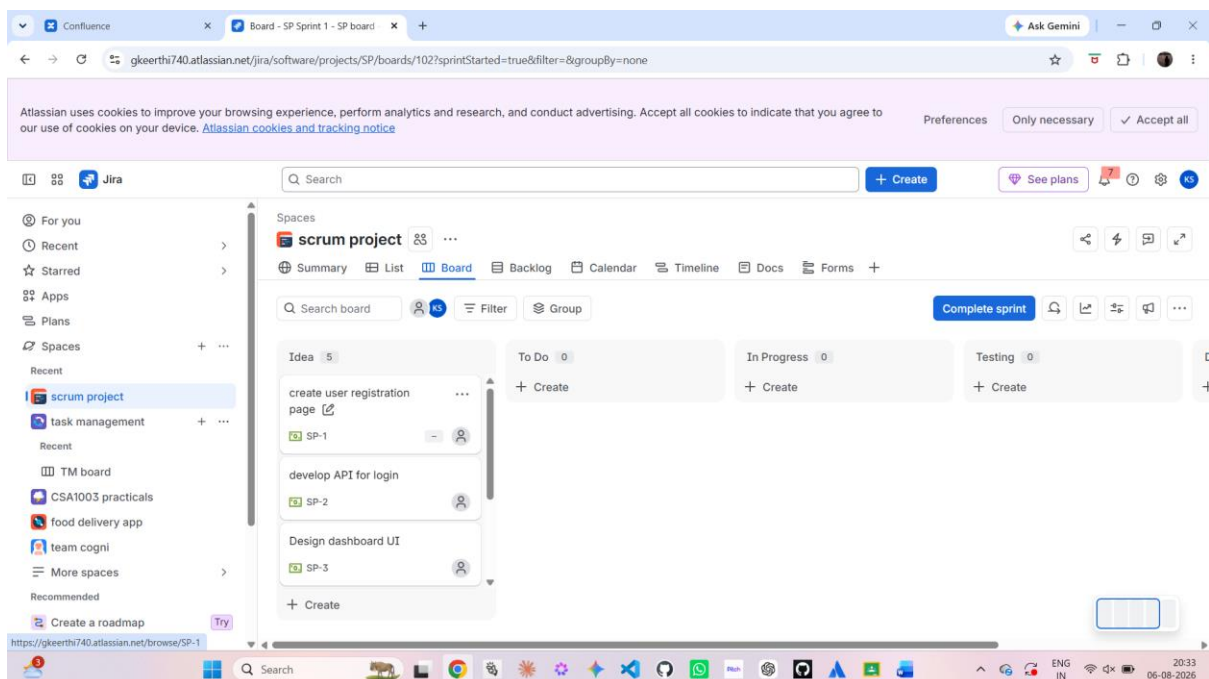

5.drag all the issue items to the sprint 1 column

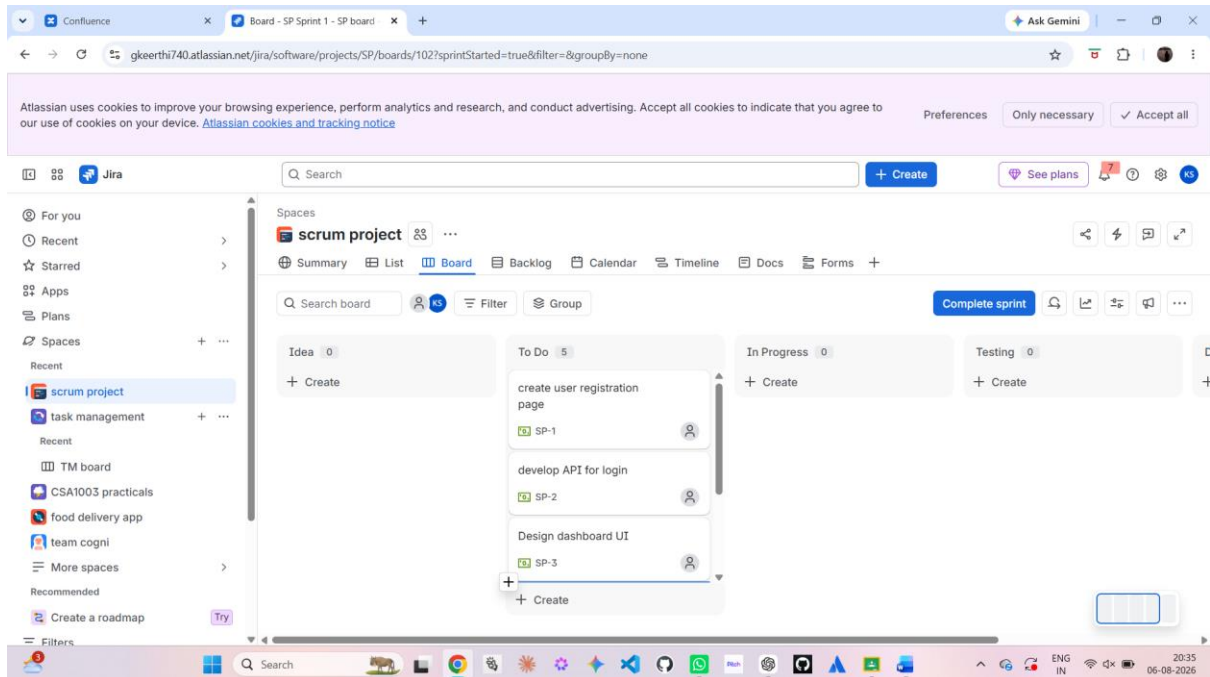

6.set the sprint duration , date and the sprint goal and start the sprint

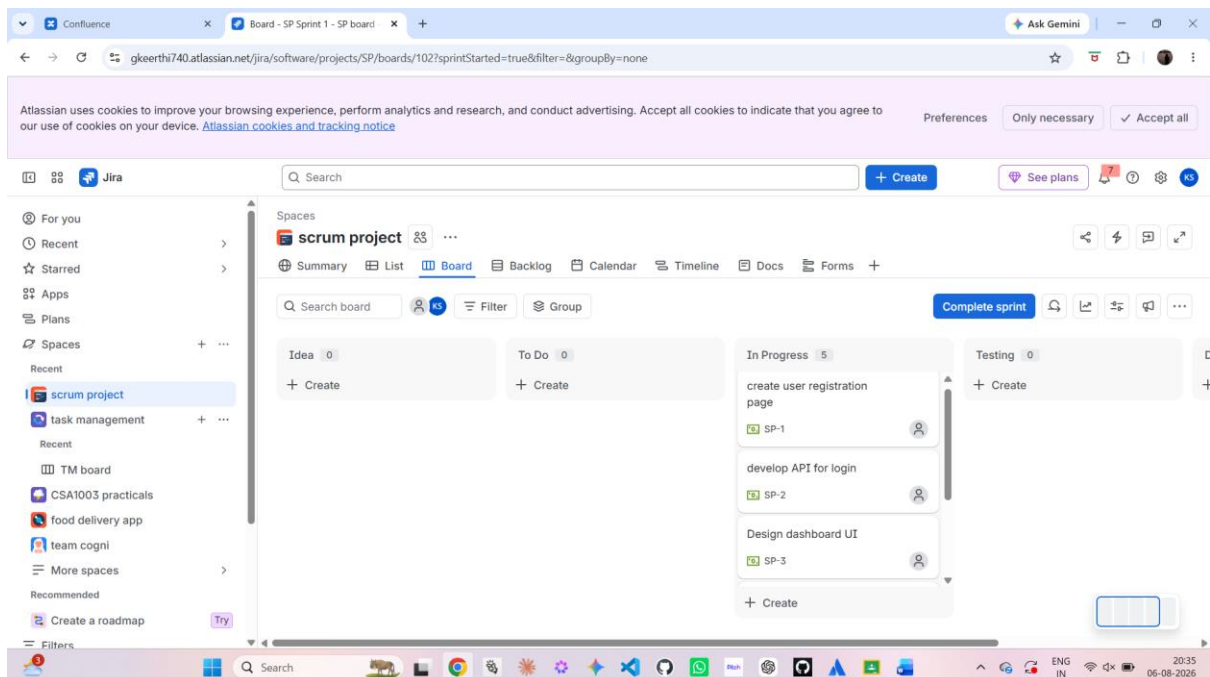

7.All the issues are assigned in the idea column

8. Drag all the issues to the to do column

9. Drag all the items to the in progress column

10. Drag all the 5 items to the testing column

The screenshot shows the Jira Scrum board for the 'scrum project'. The board has four columns: 'Idea' (0 items), 'To Do' (0 items), 'In Progress' (0 items), and 'Testing' (5 items). The 'Testing' column contains the following items:

- create user registration page (SP-1)
- develop API for login (SP-2)
- Design dashboard UI (SP-3)
- test login functionality (SP-4)
- test user registration page (SP-5)

The 'Complete sprint' button is visible in the top right corner of the board.

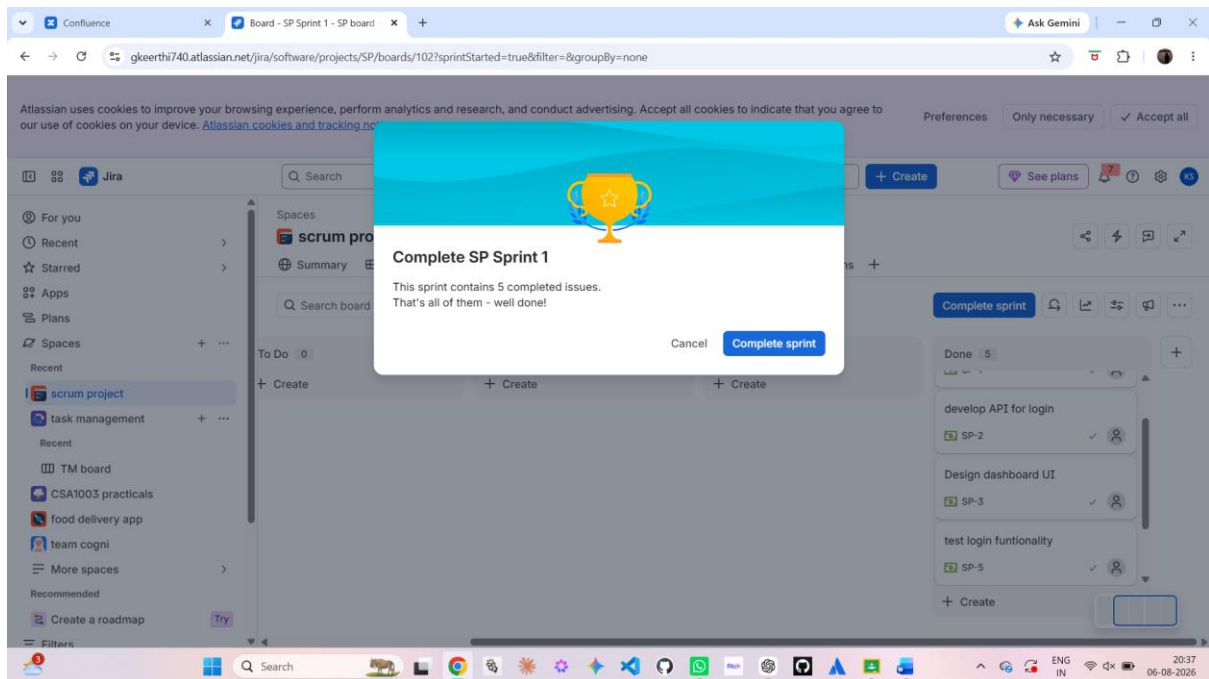

11. Then drag all the items to the done column

The screenshot shows the Jira Scrum board for the 'scrum project'. The board has four columns: 'To Do' (0 items), 'In Progress' (0 items), 'Testing' (0 items), and 'Done' (5 items). The 'Done' column contains the following items:

- develop API for login (SP-2)
- Design dashboard UI (SP-3)
- test login functionality (SP-4)
- test user registration page (SP-5)
- create user registration page (SP-1)

The 'Complete sprint' button is visible in the top right corner of the board.

12.click the complete sprint options

13.The scrum project has been completed
